COME ON DOWN TO WPFW AND HELP US WARM OUR NEW HOME!

WPFW has moved into a new station, at 1778 U Street NW, and we are just getting settled in...but we'd like to invite our listeners to help us, by dropping by during the Minithon with chairs, pencils, paper, wire or checks...or maybe just some words of cheer to start out the New Year in our new space. And as part of the Minithon we will be presenting, over the airwaves the best of the last years programs...and some new surprises too...so stay tuned to 89.3FM and enjoy 3 days of good radio. And if you can...come over...we'd like to meet you.

- Jan. 16 ~ PATRICE LUMUMBA: FREEDOM FIGHTER** 1:00 Patrice Lumumba was assassinated in the Congo in 1961. This program is a documentary on his struggle, and the fight of the people of the Congo for liberation

REPORT TO THE LISTENERS

photo/Pam Peabody

WPFW has been on the air for nine months. Many wondered whether we would make it and predicted our demise. Many more listened to our broadcasts and realized that the only barrier between WPFW and a bright tomorrow was money. Their money. We are truly grateful for the steady growth in listener-support WPFW has experienced since we began broadcasting February 28, 1977.

From that point until just before we began our Fall Marathon, \$93,000 was pledged by WPFW listeners. Of that amount, we received \$71,000 or 77% of all monies pledged. We are therefore optimistic that we will receive most of the \$50,000 pledged during our most recent Marathon. To date, we have realized \$18,500 of the pledged \$50,000. That leaves \$31,500 yet to be received from the Fall Marathon.

These funds are necessary in order for WPFW to continue its upward climb. The \$89,000 we have received over the last nine months has been used to reduce the station's indebtedness, to meet critical operating costs, to relocate our studios and offices, and to resume our monthly payroll.

Resumption of our monthly payroll has been made possible by your contributions. Continuation of our payroll will be possible only if others join the Pacifica Family. We now have 6,000 subscribers of the 12,000 we need if we are to achieve total listener-support and fiscal stability.

Our future is bright, but we have a long way to go. Though the next year will be easier than the past nine months have been, we must continue our efforts to enlarge the Pacifica Family. The following dates have been set aside for our special fundraising minithons and marathons in 1978.

January 6-8	Housewarming Minithon
	First Year Anniversary Marathon
July 4	Louis Armstrong's Birthday
August 29	Charlie Parker's Birthday
October 17-31	Fall (OVER THE TOP) Marathon.

WPFW hopes the Fall 1978 Marathon will put us over the top of our goal of 12,000 subscribers. All of these fundraisers will continue the WPFW policy of using minithons and marathons not only as a time to appeal for new subscribers, but also as a time for WPFW to present the very best programming we have to offer.

As you know, WPFW has moved into a building generously donated by RAP, Incorporated. We want to express our thanks to Ron Clark and his able staff for their strong support during our move, and their continuing efforts to help us get settled. Our January Housewarming Minithon will celebrate our new space with a real, old-fashioned housewarming party. Please stay tuned to 89.3 FM to find out how you can join the fun with the Pacifica Family.

General Manager

LETTERS...

Dear Staff,

Just wanted you people to know I really dig the music you all play. Especially at night. I'm not listening right now because you're in the midst of your marathon, which brings me to my only complaint ... is it necessary to constantly drive listeners crazy with all that twisting of arms? I personally was not going to pledge... But then one night I caught Ron Sutton playing some phenomenal music for over an hour without once giving a pitch. On the hopes that programming of music without begging will be adopted, I enclose my pledge.

Sincerely,

D. Condon

WPFW:

...It is great to learn of a non-commercial venture encouraging community talent, when nearly all is commercial and so little is community. Especially, compliments to all the volunteers who are making it possible to give your programs to so many.

C. Clemson
Lancaster, Pa.

Dear Pacifica,

Your signal has made it all the way here, 120 miles away. Bravo!

P. Hannah
Middletown, Del.

Dear Pacifica Staff,

Your music and community oriented programs are a breath of fresh air for desperate area jazz buffs who have long waited for a radio station like this. Please stay on the air for we would go through serious withdrawal changes if you weren't around any more.

Thank you,
E.S. Coppedge

Dear WPFW Folks,

If you would maintain your original Marathon billing as an all jazz station, you would likely guarantee your continued existence.

The radical rhetoric and vacuous blab shows have and earn little support.

M. Daly

Dear WPFW --

It's fantastic to finally have a political station in DC. I see you as an incredibly effective organizing force in the metro area.

Thanks for keeping radio free!

B. Dillon
Magnolia, Md.

People,

Your style of music is mellower and more meaningful. Initially it felt good to have real jazz. But I've come to know that 'PFW has a lot more, is a lot more. At first your "talk shows" and alternative format shows almost turned me off. I then realized that I didn't have to like some of them and never would. This to me is part of the message of 'PFW: don't be afraid to put those little jewels on the air that only a small portion of the audience will respond to. I don't mind 10 programs aimed at others, if the 11th hits me close to home.

E. Huggins

Hello People:

Have you considered giving a regular time period on the special programs of older people? I am a Gray Panther --
